

LESSON TITLE: INDIVIDUAL DRILL EXAMINATION (IDE)

LESSON OBJECTIVES:

Apply principles of leadership while executing basic drill movements

TEACHING METHOD: Student Exercises

CONTACT HOURS: 1.5 Hours

READING:

Air Force Manual 36-2203, Drill and Ceremonies

READING RATIONALE:

Air Force Manual 36-2203, Drill and Ceremonies, is the Air Force's primary source for explanation and definition of drill and ceremonies

MATERIALS REQUIRED: Index cards or blank paper strips containing 7-8 different drill commands on each

LESSON OUTLINE:

Strategy: Each student is given the opportunity to lead a flight of 12-15 cadets. One student is chosen from the flight to start the exercise. The student chooses a card containing 7-8 commands, reports in, takes command of the flight, and executes the commands listed on the card he/she chose. Once completed, the student chooses another member from the flight to take over command of the flight. This sequence continues until all students have commanded the flight and have executed 7-8 commands.

LESSON INTEGRATION AND RATIONALE:

This lesson forms the foundation of Air Force leadership, commanding a flight. It gives each student the opportunity to command a flight by executing a small number of commands.

LESSON OPR: National Headquarters, Civil Air Patrol

This lesson last revised: 23 April 2002

DIRECTIONS

REPORT IN AND EXECUTE THE FOLLOWING COMMANDS:

ATTENTION
PRESENT ARMS
ORDER ARM
PARADE REST
